Orthotic Protection

LBGMEDICAL

WHY PROTECT YOUR ORTHOSES?

Over **87%** of orthotic devices will need to be **REPAIRED** or **REPLACED** within the first two years of their manufacture.

Every day you take over **12,000 STEPS** and with each step you take, your body will impact upon modern, rigid surfaces. The **FORCE** upon your orthoses amounts to over **500,000 kilogram** per day.

Just as your car may need a regular MOT or repair, so will your orthoses. **REPAIRING** or **REPLACING** your orthotic devices can be a very costly and time consuming experience, leaving you **OUT OF POCKET** and in some cases causing a reoccurrence of symptoms due to the prolonged absence of orthotic treatment.

LET US PROTECT YOUR ORTHOSES...

LBG Medical Protect scheme is a comprehensive plan providing you with **TWO YEARS PROTECTION** on your orthotic devices. (This must be purchased within six weeks of the manufacture date).

If you would like to be protected against prolonged interruptions to your treatment as well as substantial additional costs...
THEN PROTECT IS FOR YOU!
